

# MIOSHA Training Registration Form

## Parts 39 and 40: Electrical Standards for General Industry

**Led by Jeff Edgerton**  
 Senior Occupational Safety Consultant  
 MIOSHA, CET Division

### Who Should Attend...

This seminar is a must for anyone concerned about health and safety on the job, including:

- Managers concerned about workers' compensation costs
- Employees who want to learn proper techniques for protecting their safety and health at work
- Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA)

### What You'll Learn...

This challenging course provides the information needed to safeguard your employees and property from electrical hazards in the work environment. We will discuss the application of MIOSHA electrical standards for general industry. Topics include a fundamental explanation of electricity, clarification of qualified vs. unqualified employees, how to work with electricity safely, as well as electrical installation expectations. Emphasis is placed on electrical hazard recognition, the safe and correct use of electrical testing equipment and case study review. Due to the fast pace of the course, it is expected that the students have read General Industry Standards Part 39, Design Safety Standards for Electrical Systems, and Part 40, Safety Related Work Practices prior to attending.
