

Health Hazards in Construction (Virtual)

Led by Aaron Gundrum
 Industrial Hygienist
 MIOSHA, CET Division

Who Should Attend...

This seminar is a must for anyone concerned about health and safety on the job, including:

- Managers concerned about workers' compensation costs
- Employees who want to learn proper techniques for protecting their safety and health at work
- Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA)

What You'll Learn...

This course will help educate and make the construction manager/worker aware of some typical occupational health hazards and potential health effects that are associated with the construction trade industry. This workshop is designed to give the student an overview of the basics of industrial hygiene, as well as health issues that may be encountered in the construction industry. Topics covered include lead, silica, cadmium, isocyanates, hexavalent chromium, and asbestos. Students will be able to recognize potential problems with exposures and how to protect themselves with the use of engineering controls and personal protective equipment. Virtual classroom with an in-person instructor. This training format can be taken from the office, home, or remotely.

Program Details...

Date: Wednesday, January 8., 2025
 Location: Virtual
 Cost: \$94*
