Parts 35, 90, and 490: Confined Space in Construction and Permit Required Confined Spaces in General Industry

Who Should Attend...

This seminar is a must for anyone concerned about health and safety on the job, including:

- Managers concerned about workers' compensation costs
- Employees who want to learn proper techniques for protecting their safety and health at work
- Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA)

Led by Jeff Edgerton
 Senior Occupational Safety Consultant
 MIOSHA, CET Division

What You'll Learn...

This course will provide an overview of both the construction and general industry rules related to confined spaces and permit-required confined spaces. Examples of actual spaces will be used to clarify the definition and facilitate proper identification of confined spaces versus permit-required confined spaces. The three means of entering a permit-required confined space are described in Part 35, 90, and 490. These will be discussed along with their correct implementation. This course also includes an introduction to the principles of air monitoring and ventilation of confined and permit-required confined spaces.
