

MIOsha Training Registration Form

Electricity: The Invisible Killer

Led by Jeanelle Allen
MIOsha Construction
Occupational Safety Consultant

What You'll Learn...

Electrocutions continue to be one of the leading causes of fatalities in construction. This program will explain and illustrate the primary electrical hazards in and around construction. There will be special emphasis on the importance of recognizing and eliminating hazards in order to avoid shock and/or electrocution in the workplace. Also covered in the program will be MIOsha standards that apply to electrical hazards; what constitutes a fatal amount of current and when overhead lines need to be de-energized.

Program Details...
